Course Accreditation and Recognition
Application Form for UK HEIs

Below is a list of university degree courses that have been accredited or recognised through the IMA's Course Accreditation and Recognition (CAR) scheme. The CAR scheme commenced in 2025/26. Prior to this, the Course Accreditation scheme accredited degree courses only. To check the accreditation status of a university or a particular degree course pre-2025/26, please refer to the list of IMA Accredited Degree Courses on the CAR webpage.

CAR is awarded at three levels:

1. **Recognition**: meets the educational requirements for IMA membership (Student, Associate, Member or Fellow).

2. **Accreditation at BSc (Hons) level:** meets the educational requirements for Chartered Mathematician (CMath), when followed by further study or appropriate professional experience.

3. **Accreditation at Masters level:** fully meets the educational requirements for CMath.

Degree courses accredited at BSc or Masters level are also granted Recognition automatically.
