

How the Scheme is Managed

The IMA has been contracted to deliver the Scholarship scheme by the National College of Teaching and Leadership (NCTL), part of the Department for Education. We are working closely with the London Mathematical Society (LMS), Royal Statistical Society (RSS), Mathematics in Education and Industry (MEI), The Mathematical Association (The MA) and the National STEM Learning Centre to develop and deliver the scheme on behalf of the wider maths community.

Individual members of the maths community can support the scheme either through publicising it or taking an active role as an assessor. Individual bodies and institutions including universities and schools also host assessment activities.

A Management Group has been established made up of representatives from all six bodies and NCTL. This meets approximately every three months to provide strategic overview and input into operational matters. It also receives progress and financial reports.

The scheme is managed on a day to day basis by a part time Project Manager with additional support as required.
