

IMA Presidential Address 2017

**Cultural challenges facing the
mathematical sciences**

Professor Chris Linton FIMA (Loughborough University)

6.30 pm, Tuesday 21st November 2017

Watson Building Lecture Theatre A, University of Birmingham,

Edgbaston, Birmingham, B15 2TT

The mathematical sciences ecosystem is a land full of excitement and opportunity. Nevertheless, there is a danger that much of this will be missed if we cling to 20th century priorities and value judgements. As the environment around us evolves, so must we. In this talk I will describe some of those areas where I believe change is most needed and what the consequent benefits might be.

Parking details: Parking in North East multi-storey car park is free after 4.30 pm. Access is via Pritchatts Road, Sat Nav B15 2SA

Non-members welcome, no charge is made.

After the talk, you are welcome to join us and the speaker for a meal.
